

Hands-on exercises to the lecture „Modern Methods in Drug Discovery“ WS13/14

Setting up SMILES

The DEPICT Tool on the Daylight website allows you to depict your SMILES.

http://www.daylight.com/daycgi_tutorials/depict.cgi

The screenshot shows a web browser window with the URL www.daylight.com/daycgi_tutorials/depict.cgi. The page is titled "DEPICT". It features a text input field labeled "SMILES:" containing the string "CC(=O)O". To the right of the input field are several controls: a "Colormode:" dropdown menu set to "BOW", an "Image Size:" dropdown menu set to "M - 240x200" with fields for "width:" and "height:", and a "Columns:" dropdown menu set to "2" with a field for "specify:". Below these controls are three buttons: "Depict", "Reset", and "Help". At the bottom of the page, there is a logo for Daylight Chemical Information Systems, Inc. and the email address support@daylight.com.

DEPICT

SMILES:
CC(=O)O

Colormode: BOW
Image Size: M - 240x200 or specify width: height:
Columns: 2 or specify:
